

H3ABioNet

Pan African Bioinformatics Network for H3Africa

Clinical Data Storage

Freedom Mukomana (SBIMB, Wits)

How it all started

- Idea to form a Biobank
- Attended Biobank Seminars and visited other biobanks
- Prototypes

Factors

- Costs
 - Initial Costs
 - On-going Support
- Skills Available

Why The Ark Informatics

- Minimal Costs
- Functions available

The Ark Informatics

- established within the Centre for Genetic Origins of Health and Disease at The University of Western Australia (UWA)
- in late 2009
- to develop an open-source platform
- to support Australian and international biomedical researchers

The Ark Informatics

Administration
